

Case Study for Digital Transaction System

CYLSYS Software Solution Private Limited

Cylsys, Mumbai. June 2020

Case Study for INDIA's top Mutual Fund Company

The Challenges

Mutual Fund companies handle several heavy transaction in a day The whole business depends upon these transactions. And the RM,RH,investors-companies and individuals, brokers,distributors and different banks are involved in the process.

In order to identify the transaction details from an investor in Mutual fund account, track them on a timely basis (ie before 3PM everyday) and provide them Credit confirmation defined process needs to be followed which includes:

Bank Statements downloads from different banks . Process of email and fax transactions confirmation by giving confirmation in terms of timestamp. Inflow outflow /transactions/Trigger and other reports

This whole process of checking the daily transactions, checking the credits is done manually in most of the Mutual Fund companies.

Our offerings:

Digital Transaction System is a utility that handles all the transaction processing occurring in mutual fund companies. DTS works on daily basis and handles all the transaction related data DTS ensures that every transaction is taken care and logged into system.

To reduce this cumbersome and repeated manual work, we have developed a solution called Digital Transaction System (DTS) for Mutual Fund companies.

DTS application flow:

- Download bank statements
- Transaction confirmations
- Time stamping for Email, FAX transactions
- Unregistered transactions process
- Credit Confirmations
- Customer Masters and POC Mappings
- Reports-Inflow/Outflow, Transactions and many more
