## Case Study – GoKhana

---

### The Client

GoKhana is the Technology based Application created by ToBox Ventures Pvt. Ltd. which provides convenience and increases efficiency in Corporate food courts, malls, Tech -parks, Restaurants/Lounges and in Apartment/ societies. The GoKhana app can be used by customers to bypass lines in crowded food courts by ordering seamlessly through the App OR create your own order in a Restaurant on this app to ensure a pleasant dining experience OR use the App for Community buying in an Apartment or Societies ,thereby allowing residents of these societies to enjoy the convenience of a single platform for all orders and getting cost savings benefits of bulk orders passed onto residents.

### The Challenges

The Company needed resources having exceptional skills in React JS to help in creating and enhancing the app from its current form which was going to be launched in Bengaluru. These resources would be on a contract for 6 months with the option of extending the tenure. But the condition was they needed these resources ASAP. Now the challenge to Cylysys was, it was confident of the capability of their ReactJS resources, but would they be available immediately as most of the resources are deployed with various clients.

### How did Cylysys help

By a stroke of luck , after checking the roster, the HR team at Cylysys could zero down on 2 exceptional ReactJS resources whose assignment at a particular client was winding up in a weeks time. And the resources were based in Bangalore. We immediately informed the client that we will deliver the required resources in a weeks time. The Client agreed and Cylysys deployed its resources to the client on the agreed date. Even during the Covid-19 lockdown when the GoKhana office was shut, the 2 resources continued on its projects working from home and meeting project deadlines set by the client.

### The Outcome

The resources of Cylysys Software delivered exceptional results in this project.

Today, GoKhana is catering not only to Restaurants and Food courts , but also to Corporates and Residential apartments and Societies. When Cylysys resources joined this project, Gokhana was catering only to Bengaluru city. Today they are catering to 7 cities. The contract for the resources was only for 6 months. Today the contract is still LIVE and the tenure has crossed 1 year.

## Our Clients

We have worked with the following clients on different modules based on the requirements.

I do hope that this information will help you gain a clear idea of what we can offer, and that we can become a recognized vendor for your organization.
